TANGLEWOOD WORKSHOP

Tanglewood Workshop, owned by woodworker Kelsey Angeli, is a wood shop that focuses on making pieces of functional natural decor, that have just a touch of whimsy to them. While much of the work has a timeless style to it, just as many pieces offer unconventional twists that plays with those classic ideas. Whether it is bookshelf decor, plant displays & cover pots, or the all time classic lathe project- bowls, each piece highlights the natural beauty of the wood they are made from.

DECOR, JEWELRY

SILVATICA DESIGNS

Silvatica Designs offers unique handcrafted jewelry made of wood. Our creative process begins in the forest and firewood stacks, where we intentionally seek wood otherwise considered defective. Qualities deemed undesirable in the forest products industry, such as knots, rot, and insect damage, provide the variation and character which make each piece unique. Our jewelry is cut and shaped to capture and accentuate these features. As a result, every item we create has its individual eccentricities and cannot be replicated or reproduced.

JKIND DESIGN

ALL PICNIC SETS 10% OFF AND USE CODE "CRAFTYMART" FOR 10% YOUR ORDER

JKindDesign is all about interrupting the environmental and social impacts of fast fashion by slowly making items that will last from carefully chosen, greener materials like organic cotton, vintage and reclaimed fabrics, and waxed canvas. In the last year or so, artist and maker Jen Kindbom has added to her fabrics an exclusive collection of prints she's drawn herself! With all of these, she makes a variety of zippy pouches, key fobs, napkins, and other accessories.

Additionally, she curates an ever-growing collection of cute, quirky, honest art in the form of stickers and cards. Jen's stickers are printed on fully recyclable waterproof paper, not vinyl, and her cards are printed on recycled paper as well. Doing art and making things is an absolute dream!

AVERT ADORNMENTS

JEWELRY FOR JUSTICE: SALE PROCEEDS BENEFIT THE ACLU OF OHIO AND AKRON BAIL FUND

Avert Adornments is a handmade jewelry brand inspired by blending the styles of my two grandmothers, with nothing old fashioned about it! Avert is Treva spelled backwards (my maternal grandma's name), and the word also encourages jewelry shoppers to avoid ordinary accessories in favor of something handmade and unique! I create adornments uniquely characterized by hand painted, hand cut, and laser engraved genuine leather, plus suede fringe and tassels - or faux suede for our vegan friends! I primarily make earrings, but have been growing my collection of necklaces in recent seasons. As my business - and personal! - motto is 'BIG earrings, bigger JOY', I specialize in sizable statement earrings, but do make many everyday smaller pieces for my customers who prefer them.

Each piece she creates is a fusion of art, science, and nature; capturing the relationship of the natural and modern world in which the organic and inorganic are delicately intertwined.

LORISSA SCHAEFER

Lorissa Schaefer's artwork is rooted in what she finds aesthetically pleasing in the environment around her. She finds pleasure in objects that are odd, curious, dainty, retro, and colorful. It is with these objects that she tries to find the humor within them, and illustrate what comes to mind. She uses bold lines and colors to do this referencing styles that can be found in old school tattooing techniques and the super graphic ultra modern movement. SNARKY PANTS STUDIOS

Snarky sisters from Ohio create unique designs for the quirky, sassy, fun loving side in all of us. Wordplay, jokes, statements of encouragement and worth, hilarious quotes, and adorable designs are the focus of every product. It all starts with a stellar idea, then Sarah sketches the design, and Erica refines it for production. Once perfected, we send our designs out to be printed on cards and stickers, and embroidered into iron-on badges or turned into enamel keychains. We print, cut, and apply the designs for our canvas bags in-house, by hand.
